A little about...

Weymouth & District Model Engineering Society

Whether you are a highly accomplished model engineer or a complete novice, whether young or old, there will always be a warm welcome for new Members to our Club. Our philosophy is one of enjoying a hobby in the company of good friends and having the opportunity to learn new skills. Currently, Members' interests include steam locomotives, stationary steam engines, traction engines, radio-controlled boats and aircraft - there is no limit to the variety of engineering projects. Help and advice is always on hand to those just starting building or even buying their first project.

We are based at Budmouth Technology College in Weymouth, where we have our own Club Room situated at the southern end of the Technology block. Members also have access to the College's extensive engineering facilities to assist with their projects. There are two ongoing Club projects which give Members the opportunity to contribute, should they wish, a little of their time in convivial company.

1. We are relocating our dual-gauge 7¼" & 5" gauge ground-level track to a different part of the College site and will be extending it to provide a delightful and scenic railway.
2. We are constructing an indoor portable 16mm to 1 foot railway which will feature both steam and electric locomotives. It will be used within the College and at local shows and exhibitions.

We meet on Tuesday evenings from 7pm - 9pm, and also on Saturday mornings from about 10am. Throughout the year (weather permitting!) we have a Club 'steam-up' on the 1st. and 3rd. Saturday mornings of the month, where Members can steam the two 7¼" gauge Club locos or bring their own, or drive model traction engines on the playing fields. In the Summer months we attend various local events with our Club locomotives and portable track.

Membership is open to all adults with an interest in Model Engineering and to juniors from the ages of 12 - 18. Full details are on the Application Form overleaf.

So, if you are interested in joining, do have a look at our website on www.weymouth-dmes.co.uk , or phone Robert Oldfield on 01297 442873 , or just come along to one of our meetings at Budmouth College, Chickerell Road, Weymouth.
